Turning hopes into Life

DR. SUMITA SOFAT HOSPITAL
ABOUT HOSPITAL

At Dr. Sumita Sofat Hospital we believe that every couple has right to have children. We offer comprehensive range of infertility services under one roof so that patient does not have to shuffle from clinic to laboratory to scan centre.

The hospital has all facilities for couples requiring assistance in conceiving. This ensures that patients are required to visit only one site for all stages of diagnosis and treatment.

The hospital was first of its kind in whole North India to start a dedicated IVF Unit in 1996. Our practice is restricted to treating infertile patients exclusively and we offer our patients the best medical care at really affordable prices.

At Dr. Sumita Sofat Hospital all the treatments including consultation, all ultrasound scans, egg collection and Embryo Transfer are done personally by Dr. Sumita Sofat. We do not delegate any part of the treatment to anyone else.
WHY DR. SUMITA SOFAT?

Dr. Sumita Sofat Hospital is known for innovation, integrity, medical and technical excellence, personalized services and consistent willingness to accept patients facing most difficult medical problems.

SUCCESS RATE

We strive for the highest possible success rates so most of our patients conceive. Tight quality control, advanced reproductive technology, state of the art IVF/ICSI lab with experienced and well trained doctors, embryologists and scientists allows us to have higher IVF/ICSI success rates at par with international standards.

PERSONALIZED ATTENTION

We are available to support our patient in the process of IVF and give psychological support to handle stress and anxiety associated with IVF.

ADVANCED TECHNOLOGY & KNOW HOW

She is considered as a trend setter for the many new infertility clinics with all the latest equipments to deliver the best quality and better results, best and latest technologies such as vitrification of eggs & Endometrial Receptivity Assay (ERA). Her centre is behind none in terms of treatment. With advanced medical instruments and equipments combined with technical knowledge and well trained doctors we are able to achieve best possible outcome.

ETHICAL AND TRANSPARENT PRACTICE

We follow all guidelines setup by ICMR. Each patient is given a detailed summary of all the procedures in the form of CD.

(MD Obs. & Gynae, Infertility Expert)

Dr. Inderpreet Pal Singh
(Clinical Embryologist)

Dr. Sandeep Sood
(Anesthetist)

Dr. K.K. Arora
(MS Surgeon, MCH)

Dr. R.K. Bansal
(Bio-Chemist)
ANDROLOGY LAB

Our hospital has two separate andrology labs. All semen sampling and semen assessment is done in these labs. All the samples of IUI are prepared by trained embryologists.

ENDOSCOPY UNIT

All advanced Laproscopy procedures like myomectomy, tubo tubal anastomosis, tubal recanalization, adhesiolysis and laparoscopic excusion of endometriomas, laparoscopic myomectomy, excision of intracavitary polyp, resection of utrine septums, adhesiolysis, total abdominal hysterectomy and NDVH, Hystrosopic Tubal Catheterisation for blocked tubes. Fibroid Embolization under C-Arm, Uterine ballon therapy for excessive Uterine bleeding, Cryocautery for cervical erosion are done in our hospital.
CRYOFREEZING UNIT

The hospital has cryofreezing unit where:-

- Semen samples of patients can be stored.
- If male patient has difficulty in giving semen sample repeatedly, then the sample is taken once and frozen for further use.
- If the husband lives abroad and can’t come again and again the semen is cryofrozen for further use.
- All the spare embryos/eggs of patient undergoing IVF/ICSI are frozen for further treatment.
- This also minimizes the cost for further IVF/ICSI cycles.
- Donor semen is also frozen for azospermic male patients.

WORLD CLASS TRAINING CENTRE

Our hospital has world class training centre, first in Punjab where candidates from across the world can come for training. Various training program being offered are:-

- Semen handling and sperm preparation techniques for IUI.
- Ovulation monitoring by trans-vaginal sonography and ovulation induction.
- Training in Oocyte retrieval for IVF/ICSI.
- Embryology course.
- Specialized training program for IUI and cryofreezing.
EVENTS AWARDS & ACCREDITATION

Dr. Sumita Sofat, one of the renowned infertility expert in Northern India, has attained another milestone by achieving the Anhad Sanman Award from Honourable Chief Minister of Punjab, Shri Prakash Singh Badal for her exemplary contribution to the field of medical sciences as an IVF scientist.

- Awarded Young Scientist Award in Rome (Italy) by World Association of Reproductive Medicine (WARM).
- Awarded for her work in infertility by the President of Indian Academy of Human Reproduction.
- Felicitated by the former Health & Family Welfare Minister of Punjab Sri Satpal Gosain for her excellence in infertility.
- Felicitated by the former MLA of Sangrur, Mr. Paramjit Singh Sibia for organizing a CME and training program for doctors in Sangrur.

NORTH INDIA'S BIGGEST BABY SHOW

Dr. Sumita Sofat, got appreciation from Honourable Health Minister Shri Satpal Gosain for organizing first of its kind, North India's Biggest baby show. Hundreds of couples from across India who got their babies after getting treatment at Dr. Sumita Sofat's Hospital joined this baby show with their babies & made it Big Success.
COUNSELING, TRANSPARENCY & DOCUMENTATION

Infertility patients are generally found to be under stress, that's why we have trained & certified counselors who help patients at all stages of treatment.

Our hospital is well known for its transparency in the IVF/ICSI program. All the patients are given IVF/ICSI cycle summary which includes drugs used for ovarian stimulation and number of embryos transferred and cryofrozen.

Patients are also given video recording of oocyte retrieval and colour printout of all embryos that are transferred in that particular cycle.

MEDICAL TOURISM

The centre has been recognized by the Punjab govt. for the treatment of NRI patients at subsidised cost. Since India, specially Punjab has become a preferred destination for infertility treatment, the number of NRI and foreign patients has increased.

Our hospital has a special travel desk and patients relation officer for overseas patients. Special arrangements can be made for our patients.
